

**Course: Course Abduction Course**

**Time: 8 hours**

**Course Description:**

This course provides a comprehensive examination of human behavior, situational awareness, and defensive tactics to counter abduction. Students will learn to analyze human behavior patterns, develop situational awareness skills, detect potential threats, and apply appropriate defensive tactics. The course will blend theoretical knowledge with practical application through case studies, simulations, and hand-on exercises.

**Course Objectives:**

1. Understanding the principles of human behavior and their influence on individual and group actions.
2. Develop heightened situational awareness to effectively assess environments and anticipate potential threats.
3. Learn techniques for detecting and analyzing verbal and non-verbal cues indicative of hostile intent or deception behavior.
4. Explore defensive tactics including de-escalation strategies, physical self-defense techniques, and conflict resolution skills.
5. Apply theoretical knowledge to real-world scenarios through case studies and practical exercise.
6. Enhance critical thinking and decision-making abilities in high-pressure situations.

**Course Topics:**

1. Introduction to the Criminal Paradigm (CP)
2. Psychological principles of human behavior
3. Factors influencing behavior in different environments.
4. Developing situational awareness
5. Threat assessment and detection
6. Verbal and non-verbal cues analysis
7. Defensive tactics and physical self-defense techniques
8. De-escalation strategies and conflict resolution
9. Case studies in threat detection and response
10. Practical application and scenario-based exercises

**Teaching Method**

- Lecture
- Discussion
- Case Studies
- Role Playing exercises.
- Practical demonstration

**Guest Speaker**
